The principle of our yoke is the true one for

FIT, DURABILITY AND COMFORT.

The fullness in the back is concentrated over the muscles of each shoulder, which permits the action of the muscles, easy, unobstructed exercise, while the stronger part of the yoke covers the part where the strain is the greatest. It is readily seen that the BOSOM of the Globe Perfect-Fitting Shirt is kept more closely to the body than by any other system.

These Goods are very handsomely put up, are equal in quality to any custom-made Shirts, are full length and full sizes, and all the minor details in the manufacture are carefully complied with.

One trial will convince the wearer that they are the best goods for money on the market.

When ordering, please specify whether open back or open front.

Our **GLOBE CORSET**, made of Naumkeag Satteen Jean, twenty bones, in white and colored, trimmed and Embroidered, put up in boxes singly, is being sold by over Two Thousand Mercantile Houses from Maine to California, and the universal testimony is that it is the best selling Corset ever offered to the Trade.

Our **GLOBE X** is made from London cord and French coutille, of very fine material, twenty bones, very handsomely trimmed and embroidered, put up singly in very attractive boxes, and six in carton, with handsome lithographic show cards.

Our **GLOBE LONDON CORD** is made of fine material, and extra care and pains taken with its manufacture, and we believe will be very popular with the trade.

Our **GLOBE XX** is made from French coutille, with extra heavy bones, and put up in very handsome boxes.

Every Corset is inspected, and no imperfect goods are placed upon the market. They are adapted readily to the form, giving it grace and beauty. Being made upon scientific principles, which are protected by Letters Patent, they give strength and support to the body. They are made FULL length, and full over bust and hips. The very low prices they are sold at place them within the reach of all. They are STANDARD Goods of uniform quality.

We claim for all our Corsets, that they are free from any injurious coating to rot the fabric, and are better adapted to the Trade than any other Corsets. Beware of spurious imitations.

The Serpentine Wire CORSET CLASP.

Patented Nov. 18, 1873.

The Manufacturer, Dealer and Consumer have all wanted a corset clasp, that would be elastic, strong and durable, and one that would not cut the material or injure the wearer. The inventive brain has toiled by the midnight lamp many a long and weary hour, and at last the tired worker exclaims: "Eureka!" "I've found it!" and the *Serpentine Wire Corset Clasp* is the result.

The advantages of the Serpentine Wire Clasps over all others are, they yield to every movement of the body, without cramping or injury; and each turn of the wire being rounded and smooth prevents the cutting of the garments, or person of the wearer; and the corsets wear much longer from the fact that the wire clasp overcomes the cutting properties of the flat steel and metal clasps that are in common use. The hooks and eyes or loops being made from same piece of wire as the body of the clasps, there is no breaking of hooks or clasp.

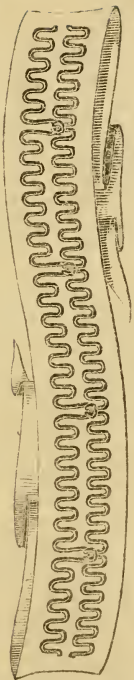

Physiologists and Physicians heartily endorse this new clasp, as overcoming all the objections to the stiff and flat steel clasps that deform and injure the body. For sale by all dealers.

PRICE PER GROSS.

FACTS FOR THE TRADE.

The Serpentine Wire Corset Clasp

Is the only clasp ever made that is not injurious to the form.

All Physicians and Physiologists who have seen, like them.

They will not break, and will bend to every movement of the body.

They do not cut the corsets or deform the bust. Are very elastic and durable.

Every lady to whom they are shown will buy at once.

What we Know.

That the Globe Mills Spool Cotton has had an unprecedented sale—and sales are increasing daily.

Manufacturers who have tested it on all machines, either by treadle or steam power, give it their unqualified endorsement.

It is soft finish, and very elastic.

For machine work it will do what Coat's, Clark's, or any other six cord thread will do, and is sold for half price.

We warrant it full measure and true to number.

3000 merchants give it their approval, and say it sells the best of any thread ever made.
